Once the above task is completed successfully.

- Navigate back to Incident Manager -> Incident Tasks.
- Select Data in-use/motion – History from the drop-down list. In this example its “Purge from history”
- Ensure the state is enabled and click Next.

Now, the evidence files associated with the incidents are moved to “pending delete” folder.

By default, the file/folder in “Pending delete” folder is retained for 60 calendar days.

If you are sure that the evidence files in pending delete is not required and not used by any other incidents, you can delete them manually.
