About this release
This document contains important information about the current release. We recommend that you read the whole document.

Important
We do not support the automatic upgrade of a pre-release software version. To upgrade to a production release of the software, you must first uninstall the existing version.

Release build – 4.6.0.429
Package date – February 22, 2018

This release was developed for use with:
▶ McAfee Management for Optimized Virtual Environments AntiVirus 4.6.0
Purpose
This release fixes a problem that was reported in the previous version.

Rating – Mandatory

<table>
<thead>
<tr>
<th>Mandatory</th>
<th>Critical</th>
<th>High Priority</th>
<th>Recommended</th>
</tr>
</thead>
</table>

- Required for all environments.
- Failure to apply Mandatory updates might result in a security breach.
- Mandatory patches and hotfixes resolve vulnerabilities that might affect product functionality and compromise security.
- You must apply these updates to maintain a viable and supported product.

For more information, see KB51560.

Resolved issues
The current release of the product resolves this issue. For a list of issues fixed in earlier releases, see the release notes for the specific release.

Installation information

For information about installing McAfee MOVE AntiVirus, see the installation guide for McAfee MOVE AntiVirus 4.6.0.

Verifying the Hotfix installation
You can confirm the Hotfix installation by verifying the product version in McAfee ePO System Tree as 4.6.0.429.

Additional information

Important
The attached files are provided as is, and with no warranty either expressed or implied as to their suitability for any particular use or purpose. McAfee assumes no liability for damages incurred either directly or indirectly as a result of the use of these files, including but not limited to the
loss or damage of data or systems, loss of business or revenue, or incidental damages arising from their use. Hotfix files should be applied only on the advice of Technical Support, and only when you are actually experiencing the issue being addressed by the hotfix. Hotfix files should not be proactively applied in order to prevent potential product issues. You are responsible for reading and following all instructions for preparation, configuration, and installation of hotfix files. Hotfix files are not a substitute or replacement for product Service Packs, which may be released by McAfee. It is a violation of your software license agreement to distribute or share these files with any other person or entity without written permission from McAfee. Further, posting of McAfee hotfix files to publicly available Internet sites is prohibited. McAfee reserves the right to refuse distribution of hotfix files to any company or person guilty of unlawful distribution of McAfee software products. Questions or issues with McAfee hotfix files should be directed to Technical Support.

**Getting product information by email**

The Support Notification Service (SNS) delivers valuable product news, alerts, and best practices to help you increase the functionality and protection capabilities of your McAfee products.

To receive SNS email notices, go to the SNS Subscription Center at [https://sns.secure.mcafee.com/signup_login](https://sns.secure.mcafee.com/signup_login) to register and select your product information options.

**Where to find product documentation**

Go to [docs.mcafee.com](http://docs.mcafee.com) to find the product documentation for this product.

Go to [support.mcafee.com](http://support.mcafee.com) to find supporting content on released products, including technical articles.
